About OMER

OMER S.p.A., founded in Palermo in 1990 as a manufacturer of components for road vehicles, in 1993 began operating in the sector of components and interior furnishings for railway transport vehicles. Today OMER is an important international operator in the sector of design and production of railway components with a high engineering, design, and innovative content, intended for the fitting out of high-speed, regional, and metropolitan trains. The Company positions itself as a partner of the railway train builders, who receive their orders from the railway transport operators. The Group is recognized by the main rolling stock manufacturers and specializes in the design and production of railway interiors, i.e., internal linings for all areas of the vehicle, toilet module cabins, as well as external carriage components, such as fairings and doors. The Group's commitment is also expressed in terms of ESG (Environmental, Social, Governance). The Issuer's products are in fact intended for a sector with particular attention to the environmental impact such as the railway sector. In this regard, the prevalent use of aluminum inside trains is oriented towards high recyclability. For further information: www.omerspa.com
