

PRESS RELEASE

OMER AMONG THE PARTICIPANTS OF THE INTERNATIONAL INNOTRANS EXHIBITION IN BERLIN AND JOINS ALSTOM'S ALLIANCE PROGRAM.

Milan, September 27th, 2024 - OMER S.p.A. (the “Company” or “OMER”, ISIN IT0005453748) - a company active in the field of interior components and furnishings for railway transportation – from 24 to 27 September 2024 OMER is among the participants in the 14th edition of InnoTrans, the largest European event dedicated to the world of transportation. Organized by Messe Berlin, this event takes place every two years in Berlin.

During the event, the company signed up for Alstom's Alstom Alliance Program, that includes companies active in the railway sector and is based on three fundamental pillars: business development, industrial and product excellence, and innovation.

Through this program, Alstom aims to establish premium partnerships with strategic suppliers, thereby contributing to the development of innovative, high-quality, sustainable, cost-effective, and reliable mobility solutions.

InnoTrans is the leading trade fair for the sector, divided into five exhibition segments: Railway Technology, Railway Infrastructure, Public Transport, Interiors, and Tunnel Construction. In addition to the usual exhibitions across 42 halls of the Berlin Exhibition Grounds, it also offers participants a rich convention program, featuring high-profile roundtables and expert meetings focused on mobility topics relevant to the future.

During the four days of the fair, Omer's management and commercial team had the opportunity to meet with company representatives from their key business partners—Alstom, Hitachi, Knorr-Bremse, Siemens, Stadler, and Trenitalia—and to discuss the current state of the industry in Europe.

Giuseppe Russello, Chairman and CEO of Omer, commented the participation in the fair and the adherence to the Alstom Alliance Program: *"Attending an international event like Innotrans is always interesting and engaging, an essential appointment for us operators in the sector. It's a crucial opportunity for meeting and exchanging ideas to better understand the directions in which the transportation sector is moving on a global scale, and a chance to connect with our customers and partners. This year, it was also an occasion to join the Alstom Alliance Program. Being part of the Alliance is both a recognition and an incentive for us to contribute to the growth of our sector by promoting the development of innovative, competitive, and sustainable mobility solutions".*

About OMER

OMER S.p.A., founded in Palermo in 1990 as a manufacturer of components for road vehicles, in 1993 began operating in the sector of components and interior furnishings for railway vehicles. Today OMER is an important international operator in the design and production of railway components with a high engineering, design and innovative content, intended for the preparation of high-speed, regional and underground trains. The Company is positioned as a partner of the manufacturers of railway trains, which receive their orders from railway transport operators. The Group is recognized by the main manufacturers of rolling stock and is specialized in the design and production of railway interiors, i.e. internal coatings intended for all areas of the vehicle, of cabins for sanitary modules (so-called toilet module cabins), as well as of the external components of the carriage, such as fairings and doors. The Group's commitment is also made clear by an ESG (Environmental, Social, Governance) profile. The Issuer's products are in fact intended for a sector which cares for the environmental impact such as the railway sector. In this regard, the prevalent use of aluminium inside the trains is oriented towards high recyclability. For more information visit our website: www.omerspa.com
